

Autoclave

### Technical characteristics

- 1、 Infrared heating
- 2、 Unforced air circulation system with no fan
- 3、 Installed power is 50% less than existing autoclave
- 4、 Energy-saving 30-40%
- 5、 Open-shut device of the autoclave door is solid ,easy to adjust
- 6、 Simple operation with PLC controls
- 7、 Turnkey installation

### **Main Material Used**

Autoclave gate and body: 16MnR

heater: Gold-plated mid-wave infrared tube

Sealing system: rubber sealing ring.

thermal insulation material: Salty cotton and kapok and aluminum silicate

chiller: Seamless steel pipe finned tube entire volumetric heat melt galvanization
